

## Orgil Mineral Water

**Orgil mineral water** was registered in the name of Delger International, registration date: 2009.05.04, registration number: 7661, application number: 8524

The Orgil mineral water originates in Orgil spring with the main purpose of treating stomach diseases. This water comes from a spring that contains various minerals, such as salts and sulfur, magnum, chlorine, sulfate, and bicarbonate compounds. Mineral water may be effervescent or "sparkling" due to contained gases. Traditionally, mineral waters were used or consumed at their spring sources.
