BAOXINGCHUAN ACHYRANTHES (宝兴川牛膝)

Country of origin: China
Type of product: Roots (Traditional products)
Geographical Area: Ya'an City, Sichuan Province Baoxing County

Specificity of the Product: This is a type of dry root that promotes strong bones and joints and has a diuretic effect. It has many clinical applications in traditional Chinese medicine. Modern research processes have also led to the extraction of Achyranthes bidentata from the root, which is a bioactive polysaccharide. This extract promotes red blood cell immunity, is anti-tumor, and reduces cyclophosphamide-induced peripheral leukopenia. This is one of the most authentic, famous varieties of Chinese herbal medicine. The model specimens collected from the Bao Xingxian Feng bucket Walled Nature Reserve are renowned both at home and abroad.
