

PAVILION CHICKEN (凉亭鸡)

Country of origin: China

Category: Special Signs of Geographical Indication Products

Type of product: Chicken

Geographical Area: Beiliu City jurisdiction administrative region

Specificity of the Product: Pavilion chickens have golden yellow neck feathers, beaks, and feet. The feathers are compact, the chickens are medium size with a strong body.

The pavilion chicken inherited fine qualities from its ancestors – which, according to legend, are swans -- thin flesh, less fatty, round body, small feet, thin tibia, uniform body, and lively disposition. Chicken is an important part of the culture of the region, and many families in the area own this type of chicken.
